Subject: ActewAGL - Notification of Building Application - Application ID : 201425930
Attachments: BA DA Conditional Approval Docs.pdf; document2014-07-25-114805.pdf

Your application has been assessed by ActewAGL and conditionally complies with our Gas Networks requirements.

Please find attached, your stamped plans together with a statement of compliance.

Separate compliance statements are required from other utilities (eg: electricity, water and sewerage, stormwater and communications).

Regards

This is a confidential message intended for the named recipient(s) only. The contents herein are privileged to the sender and the use thereof is restricted to the intended purpose. Gas Networks

STATEMENT OF
CONDITIONAL COMPLIANCE

For Non-residential and High Rise Residential

Application N^o: 201425930 Drawings in set 1

Block: 13 Section: 49

Suburb: Kingston

This application has been assessed against legislation protecting ActewAGL's gas infrastructure and access to it.

This application is approved subject to compliance with the following conditions:

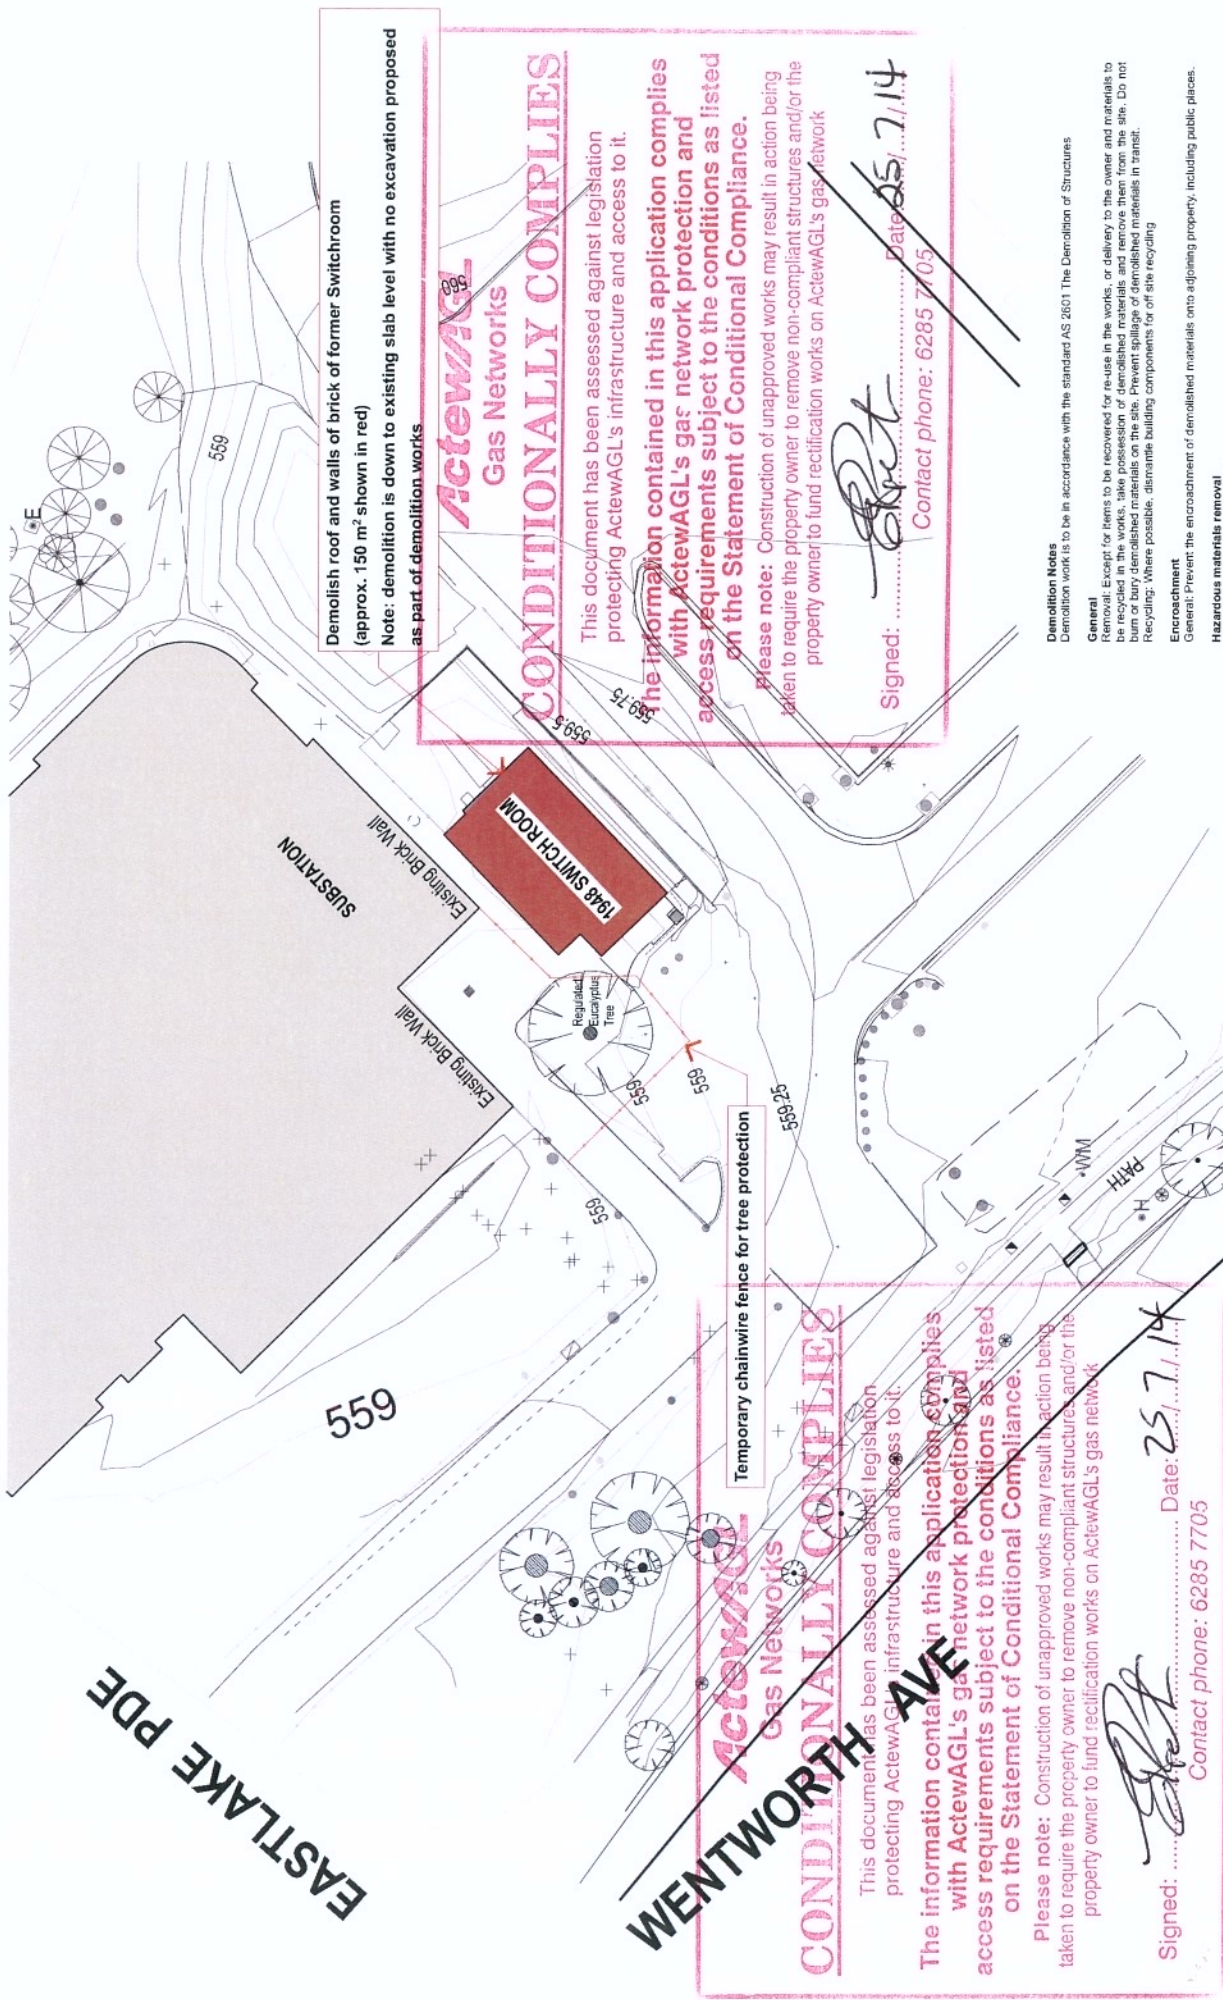

- The location and area allocated for gas regulating and metering equipment is to comply with ActewAGL standards. The following documents provide guidance:
Ref ActewAGL Document (attached): "Gas Metering Equipment – Prohibited Locations"
Ref ActewAGL Document (attached): "Gas Metering Equipment – In High Rise Buildings"
Ref ActewAGL Document (attached): "Gas Metering Equipment – Meter Set Enclosures"
- Development is to comply with minimum separation requirements to underground assets
 - 300mm minimum clearance from major plastic and steel gas mains and steel gas services
 - 150mm minimum clearance from other plastic gas mains and services
- A metering equipment upgrade may be required. A licensed gas fitter should verify loads and metering equipment capacities.
- If a meter relocation or service pipe relocation is required in order to comply with ActewAGL standards, please contact your gas retailer and book a meter relocation. Only people accredited by ActewAGL can carry out this work.
- Other:

Please note:

- **WARNING:** ActewAGL underground gas pipes may be in or adjacent to this block. ActewAGL Asset Location Advice may be required. Call 1100.
- Development and Building Applications will need to include any proposed ActewAGL works
- If ActewAGL approval conditions are not met, a breach of the law may result.
- Separate applications are required for water & sewerage, electricity and communication network services.
- Construction of unapproved works may result in action being taken to require the property owner to remove non-compliant structures and/or the property owner to fund rectification works on ActewAGL's gas network
- Any attached reticulation or servicing plan is preliminary only. Contact ActewAGL for final plans prior to the commencement of any construction activity

Signed.....[Signature].....Date 25/7/14.....

For further information please phone Steve Donnelly – Jemena 6203 0640

Demolition Notes
 Demolition work is to be in accordance with the standard AS 2601 The Demolition of Structures

General
 Removal: Except for items to be recovered for re-use in the works, or delivery to the owner and materials to be recycled, all materials, including hazardous materials, are to be removed from the site. Do not backfill, dump, discharge, or otherwise dispose of any materials in the site.
 Recycling: Where possible, dismantle building components for off site recycling

Encroachment
 General: Prevent the encroachment of demolished materials onto adjoining property, including public places.

Hazardous materials removal
 Standard: TO NS 2601 clause 1.6.2.

Landscape Management & Verge Protection
 Install 1.8m chainwire fence before work begins and remove on completion. Reinstatement verge to condition found at commencement of works. The builder is responsible for reinstatement of all damage to land vegetation, services, paths, and roads, resulting from the works.

Gas Metering Equipment Prohibited Locations

Metering equipment must not be installed in the following locations unless specifically approved by **ActewAGL**:

- (a) a bedroom;
- (b) a lift shaft or lift motor room;
- (c) a room specifically intended for electrical switchgear;
- (d) a fire-isolated stairway or passage;
- (e) a fire hydrant duct or hose reel cabinet;
- (f) sprinkler or hydrant pump room;
- (g) near a source of ignition;
- (h) in a position that would obstruct egress from a building;
- (i) in a position where the meter would be subject to physical damage unless adequately protected;
- (j) in an area where excessive temperatures or sudden excessive changes in temperature may occur;
- (k) in an area of excessive vibration;
- (l) in the foundation area under a building;
- (m) in a cavity wall, unless installed in a ventilated enclosure which meets the requirements of **ActewAGL**, and the cavity is sealed;
- (n) in a position where access for reading or maintenance is restricted;
- (o) in an unventilated position; or
- (p) on the ground, a floor which is frequently wetted or on a floor which contains material which may corrode the meter.

Gas Metering Equipment In High Rise Buildings

1 General

Where a gas **meter set** is located in a room or enclosure in a high rise building, the door of this room must not open directly onto a fire stair or fire corridor.

2 Meters in Plant Rooms

Gas **meter sets** may be located in plant rooms in which gas fired equipment is located. The enclosing walls and door must have a fire resistance rating of two (2) hours and ventilation must comply with AS 5601.

3 Secondary Meter Set Enclosures

Where a Secondary **meter set** is being installed, the following must apply:

- (a) if the **meter set** is located inside the building, then the **meter set** must be enclosed in a two (2) hour fire rated enclosure;
- (b) if the **meter set** is located outside the building, then the **meter set** must be suitably protected against impact;
- (c) the **meter set** enclosure must be ventilated according to AS 5601;
- (d) if ventilation is by mechanical means, it must be limited to the gas **meter set** enclosure only, and it must not vent to any other area of the building;
- (e) where the **meter set** enclosure venting duct passes through a wall, it must be fitted with a fire damper;
- (f) a gas detector must be installed inside an internal secondary **meter set** enclosure, and be monitored at an approved central location; and
- (g) if the internal enclosure is designed to accommodate workmen, then the enclosure must be fitted with a fire sprinkler.

Gas Metering Equipment Meter Set Enclosures

When specified by **ActewAGL** an enclosure will be installed to prevent unauthorised access or damage to the meter/regulator set. The schematic drawing of such an enclosure is shown in Fig .3. No other equipment, such as water meters, pumps, compressors, fire hydrants etc must be placed within this compound unless authorised to do so in writing from **ActewAGL**.

Such housing or protection must:

- (a) have enough clearance to allow changing and servicing of the **meter set**, and
- (b) be ventilated according to the code requirements of AS 5601 Gas Installations.

1 Installation in an Open Enclosure

Meter sets (Copper and Steel) and Regulator Sets with a capacity greater than 75m³/h must comply with the following requirements:

- (c) the location of a **meter set** / regulator set must be approved by **ActewAGL** at the building/site design stage;
- (d) the security compound surrounding the **meter set** / **meter kit** must be as per Fig. 3 and locked with an **ActewAGL** supplied padlock;
- (e) the security compound must have two entry/exit doors located at opposite sides of the runs;
- (f) ventilation of a walled enclosure must comply with AS/NZS 2430.3.1;
- (g) within hazardous areas the boundaries must be greater than the **meter set** enclosure;
- (h) electrical equipment installed on metering equipment must comply with AS/NZS 2381.1 Electrical equipment for explosive atmospheres and AS/NZS 3000 Electrical installations;
- (i) **meter sets** / regulator kit must be installed with adequate clearance for maintenance work to be performed and comply with Fig. 3;
- (j) the compound floor of the **meter set** / regulator set must be constructed of concrete and be level; and

Figure 1

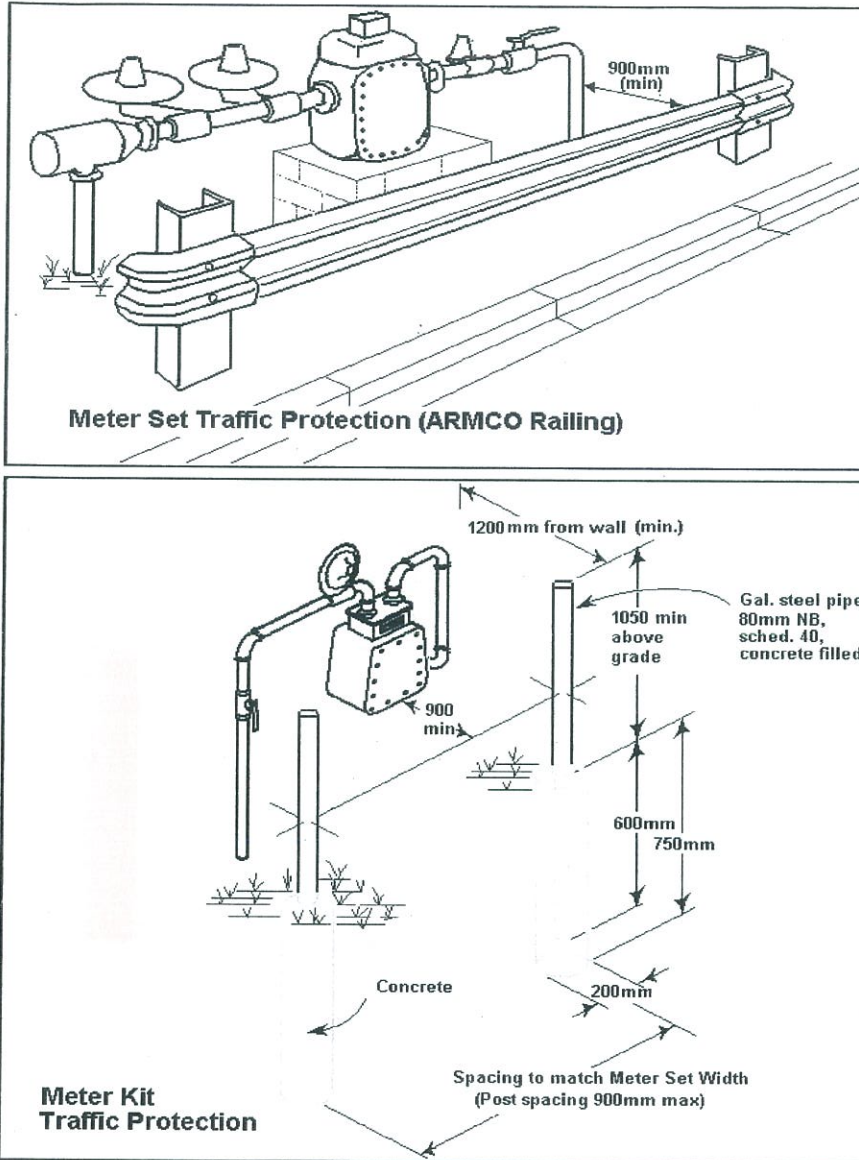

Figure 2

For further information please phone Steve Donnelly – Jemena 6203 0640

- (k) appropriate permanent safety barriers (e.g. Armco railing) must be installed between a gas/regulator set and adjacent vehicular traffic path. (see fig 2)

2 Installation in an enclosed area

Meter sets (Copper and Steel) and Regulator Sets with a capacity greater than 75m³/h must comply with the following requirements:

- (l) a room where a **meter set** / regulator set is installed must be situated by an external wall at ground level of the building with adequate ventilation for engulfment protection, unless specifically approved by **ActewAGL**.
- (m) the enclosure's walls and door must have a fire resistant rating of two hours;
- (n) the enclosure's ventilation must comply with AS 5601;
- (o) ventilation by mechanical means must only service the **meter set** / regulator set enclosure only and not vent any other area of the building;
- (p) any **meter set** / regulator set ventilation duct that passes through a wall must be fitted with a fire damper;
- (q) the enclosure must be fitted with a gas detector and that gas detector must be monitored at all times;
- (r) instrumentation and electrical equipment installed within an enclosure must comply with *AS/NZS 2381.1 Electrical Equipment for Explosive Atmospheres* and *AS/NZS 3000 Electrical installations*;
- (s) installation in confined space should be avoided; and
- (t) a **meter set** / regulator set must not be installed in a room containing an unsealed grease trap.

ACTEWAGL - WATER DIVISION

Approval ID : 142863, Kingston 13 /49

Your application has been assessed by ActewAGL against ACTEW water and sewerage network access and asset protection requirements.

Please find attached an ActewAGL DECISION STATEMENT together with your stamped plans.

A failure to comply with decision statement conditions will invalidate the approval and will expose the land-holder to prosecution under the Utilities Act 2000.

Non-compliant submissions must be rectified and resubmitted to ActewAGL for approval prior to construction commencing. A decision to proceed with construction using unapproved drawings will expose the land-holder to prosecution under the Utilities Act 2000.

Please note: Separate decision statements are required from other utilities (eg: electricity, gas, stormwater and communications)

Future applications

ActewAGL has introduced an online planning application process for obtaining utility clearances prior to submitting a development application or seeking building approval.

This revised application process consists of an electronic form available [here](#). By using the online form applicants will no longer need to complete the respective Water/Sewerage and Electricity/Gas application forms.

When an application is submitted it will be assessed against the water, sewerage, electricity and gas networks.

ActewAGL requests that organisations register their details if they regularly submit applications. Registration will reduce the time it takes to lodge an application. To register, send a return email including the organisation's name, a contact name, phone number and email address.

Regards

Eddie Gonzalez

 Contact phone: 6248 3555 (then select 2)

Demolition Notes
 Demolition work is to be in accordance with the standard AS 2601 The Demolition of Structures

General
 Removal: Except for items to be recovered for re-use in the works, or delivery to the owner and materials to be recycled in the works, take possession of demolished materials and remove them from the site. Do not burn or bury demolished materials on the site. Prevent spillage of demolished materials in transit.
 Recycling: Where possible, dismantle building components for off site recycling

Encroachment
 General: Prevent the encroachment of demolished materials onto adjoining property, including public places.

Hazardous materials removal
 Standard: To AS 2601 clause 1.6.2.

Landscape Management & Verge Protection
 Install 1.8m chainwire fence before work begins and remove on completion. Reinstatement of condition found at commencement of works. The builder is responsible for reinstatement of all damage to land vegetation, services, paths, and roads, resulting from the works.

Sewer connection

ActewAGL's requirements for demolition work which could potentially damage ACTEW assets or result in discharge of stormwater, or other unapproved wastes (other than domestic sewage) to the ACTEW sewerage network.

The property owner (or their design or construction agent) is responsible for the following.

1. Where an ACTEW sewer main traverses a property or an ACTEW sewer main is outside the property boundary (and proposed demolition works may impact on the sewer main's pipe-protection-envelope), accurate sewer network survey plans must be obtained from ActewAGL or from a registered surveyor. Sewer asset locations need to be shown on relevant demolition plans including manhole, boundary riser and tie location with off-set dimensions from site boundaries.
2. Recording the condition of manhole covers. ActewAGL can be contacted on 13 11 93 to repair damaged components. A failure to identify any faults before demolition commences may result in the property owner (or their contractors) being held responsible to pay for the repair caused by a failure to adequately protect ACTEW's assets during the demolition or building construction works.
3. Engaging a licenced drainer to disconnect the internal sanitary drains before any demolition works commence. The discharge of debris, stormwater or other unapproved liquid wastes (other than domestic sewage into the sewerage networks) is an offence under the *Utilities Act 2000*.
4. Identifying, flagging, barricading and protecting the sanitary drainage 'riser' (if installed) and manholes from demolition operations.
5. Where further construction works is planned, sanitary drains are to be temporarily sealed by capping no closer than 3 metres from the ACTEW tie. Excavation and capping is to be undertaken by licensed drainers at the customer's expense. The capping point is to be staked behind the cap and identified at ground level. Please note the subsequent building contractor will be required to make a new sanitary drainage connection at the designated tie (not at the temporary cap). This may require the removal of old jump-ups in the customer's sanitary drains. When the tie is exposed it is recommended to ask ActewAGL to inspect the branch-line to ensure it is in good condition.
6. Where further construction work is not proposed to commence within 12 months from the date demolition commences, permanent disconnection may be required. Please consult ActewAGL at this time for a definitive answer.

For more information contact:

ActewAGL Water division technical enquiry line

Phone: 6248 3555 (press '2' for Water)

Fax: 6242 1459

Or visit the customer service counter during business hours
12 Hoskins Street, Mitchell.

Water supply

ActewAGL requirements for demolition works which could potentially damage ACTEW assets or result in contamination of the potable water supply.

The property owner (or their design or construction agent) is responsible for the following.

1. Where an ACTEW water main traverses a property (and where an ACTEW water main is outside the property boundary but proposed demolition works may impact on the water main's pipe-protection-envelope), accurate water network survey plans must be obtained from ActewAGL or from a registered surveyor. Water asset locations need to be shown (including mains, valves and hydrants) on relevant demolition plans (with off-set dimensions to site boundaries).
2. Identifying the location of the ACTEW isolation valve and water meter on the site plan (with off-set dimensions from site boundaries).
3. Recording the condition of the water connection pipe, isolation valve, water meter, verge hydrants and verge network valves. Please contact ActewAGL on 13 11 93 to repair damaged components. Failure to identify any faults before demolition works commence may result in the property owner (or their contractors) being held responsible to pay for the repair caused by a failure to adequately protect those assets during the demolition or building construction.
4. Engaging a licenced plumber to disconnect the internal plumbing service at the water meter before any demolition commences. The discharge of debris, stormwater or other unapproved liquid wastes (other than domestic sewage into the sewerage networks) is an offence under the *Utilities Act 2000*.
5. Where further construction works are planned, install a temporary hose cock adjacent to the meter. Retain the meter, meter box and hose cock for the duration of any building works. Identify, flag, barricade and protect the meter assembly from demolition operations and accidental damage. To avoid accidental wastage, turn off the isolation valve until required.
6. Where further construction works is not proposed to commence within 12 months from the date demolition commences, permanent disconnection and removal of the meter may be required. Please consult ActewAGL at this time for a definitive answer.
7. Flagging and protecting network isolation valves and hydrants (on the verge) from demolition operations and accidental damage.
8. Advising ActewAGL when demolition is complete. ActewAGL may take the opportunity to install a new isolation valve and meter assembly to the current ACTEW standard.

12 Hoskins Street, Mitchell.

Sewer connection

ActewAGL's requirements for demolition work which could potentially damage ACTEW assets or result in discharge of stormwater, or other unapproved wastes (other than domestic sewage) to the ACTEW sewerage network.

The property owner (or their design or construction agent) is responsible for the following.

1. Where an ACTEW sewer main traverses a property or an ACTEW sewer main is outside the property boundary (and proposed demolition works may impact on the sewer main's pipe-protection-envelope), accurate sewer network survey plans must be obtained from ActewAGL or from a registered surveyor. Sewer asset locations need to be shown on relevant demolition plans including manhole, boundary riser and tie location with off-set dimensions from site boundaries.
2. Recording the condition of manhole covers. ActewAGL can be contacted on 13 11 93 to repair damaged components. A failure to identify any faults before demolition commences may result in the property owner (or their contractors) being held responsible to pay for the repair caused by a failure to adequately protect ACTEW's assets during the demolition or building construction works.
3. Engaging a licenced drainer to disconnect the internal sanitary drains before any demolition works commence. The discharge of debris, stormwater or other unapproved liquid wastes (other than domestic sewage into the sewerage networks) is an offence under the *Utilities Act 2000*.
4. Identifying, flagging, barricading and protecting the sanitary drainage 'riser' (if installed) and manholes from demolition operations.
5. Where further construction works is planned, sanitary drains are to be temporarily sealed by capping no closer than 3 metres from the ACTEW tie. Excavation and capping is to be undertaken by licensed drainers at the customer's expense. The capping point is to be staked behind the cap and identified at ground level. Please note the subsequent building contractor will be required to make a new sanitary drainage connection at the designated tie (not at the temporary cap). This may require the removal of old jump-ups in the customer's sanitary drains. When the tie is exposed it is recommended to ask ActewAGL to inspect the branch-line to ensure it is in good condition.
6. Where further construction work is not proposed to commence within 12 months from the date demolition commences, permanent disconnection may be required. Please consult ActewAGL at this time for a definitive answer.

For more information contact:

ActewAGL Water division technical enquiry line

Phone: 6248 3555 (press '2' for Water)

Fax: 6242 1459

Or visit the customer service counter during business hours
12 Hoskins Street, Mitchell.

Water supply

ActewAGL requirements for demolition works which could potentially damage ACTEW assets or result in contamination of the potable water supply.

The property owner (or their design or construction agent) is responsible for the following.

1. Where an ACTEW water main traverses a property (and where an ACTEW water main is outside the property boundary but proposed demolition works may impact on the water main's pipe-protection-envelope), accurate water network survey plans must be obtained from ActewAGL or from a registered surveyor. Water asset locations need to be shown (including mains, valves and hydrants) on relevant demolition plans (with off-set dimensions to site boundaries).
2. Identifying the location of the ACTEW isolation valve and water meter on the site plan (with off-set dimensions from site boundaries).
3. Recording the condition of the water connection pipe, isolation valve, water meter, verge hydrants and verge network valves. Please contact ActewAGL on 13 11 93 to repair damaged components. Failure to identify any faults before demolition works commence may result in the property owner (or their contractors) being held responsible to pay for the repair caused by a failure to adequately protect those assets during the demolition or building construction.
4. Engaging a licenced plumber to disconnect the internal plumbing service at the water meter before any demolition commences. The discharge of debris, stormwater or other unapproved liquid wastes (other than domestic sewage into the sewerage networks) is an offence under the *Utilities Act 2000*.
5. Where further construction works are planned, install a temporary hose cock adjacent to the meter. Retain the meter, meter box and hose cock for the duration of any building works. Identify, flag, barricade and protect the meter assembly from demolition operations and accidental damage. To avoid accidental wastage, turn off the isolation valve until required.
6. Where further construction works is not proposed to commence within 12 months from the date demolition commences, permanent disconnection and removal of the meter may be required. Please consult ActewAGL at this time for a definitive answer.
7. Flagging and protecting network isolation valves and hydrants (on the verge) from demolition operations and accidental damage.
8. Advising ActewAGL when demolition is complete. ActewAGL may take the opportunity to install a new isolation valve and meter assembly to the current ACTEW standard.

For more information contact:

STATEMENT OF CONDITIONAL COMPLIANCE

Application No: 142863 **Suburb:** Kingston **Block/Section** 13 / 49

Applcn Type: Non residential/Demolition Inclusions : with Shed

Attached Plans

SITE-201425930-DEMOLITION PLAN-01.pdf

Conditions

ACTEW Corporation assets shall be protected for the duration of the construction works from short term load shedding from construction machinery or vibration and groundwater ingress or infiltration. Any damage to ACTEW assets resulting from the construction works shall be repaired by ACTEW Water at the contractors expense. Access to ACTEW assets including sewer structures, manholes, hydrants and valves is to be maintained for the duration of the construction works.

Protection of water and sewer networks to be in accordance with the attached checklist

Please Note:

- ❖ Separate applications are required for ActewAGL electricity and gas networks.
- ❖ Any failure to accurately show existing or proposed structures may result in damage and costs for which the property owner will be liable. Damage to network assets must be reported to ActewAGL.
- ❖ Utility conditions may also apply to minor structures and landscaping works that may not have been depicted in this document. Consultation with ActewAGL's Water Division is advised if such structures and landscaping are planned.
- ❖ ActewAGL recommend setbacks provided for equipment access to water or sewerage network assets are kept free of obstruction by the property owner.
- ❖ Construction of works without the approval of ActewAGL may result in connection to ACTEW's water and sewerage networks being denied and /or action being taken to require the property owner to remove non-compliant services (e.g. sanitary drains) or structures.

Please refer to Info Sheets

Demolition check list .pdf

WARNING

Failure to comply with these conditions is likely to result in interference with an ACTEW Corporation water or sewer asset. Sections 123 to 125 of the Utilities Act 2000 apply, which indicates a person who interferes with a utility asset may be subject to prosecution. The current maximum penalty is a fine of \$50,000, imprisonment for six months or both. In addition the land-holder can be ordered at their expense to stop the interference, which may involve removal of the building work or that part of the building work that is causing, or is likely to cause interference.

Temporary chainwire fence for tree protection

Demolition Notes
 Demolition work is to be in accordance with the standard AS 2601 The Demolition of Structures

General
 Removal: Except for items to be recovered for re-use in the works, or delivery to the owner and materials to be recycled in the works, take possession of demolished materials and remove them from the site. Do not burn or bury demolished materials on the site. Prevent spillage of demolished materials in transit.
 Recycling: Where possible, dismantle building components for off site recycling

Encroachment
 General: Prevent the encroachment of demolished materials onto adjoining property, including public places.

Hazardous materials removal
 Standard: To AS 2601 clause 1.6.2.

Landscape Management & Verge Protection
 Install 1.8m chainwire fence before work begins and remove on completion. Reinstatement of verge to condition found at commencement of works. The builder is responsible for reinstatement of all damage to land vegetation, services, paths, and roads, resulting from the works.

Attached Plans

SITE-201425930-DEMOLITION PLAN-01.pdf

This application is approved subject to compliance with the following conditions:

Conditions

Development is to comply with minimum separation requirements to underground assets. Ref ActewAGL Drawing 3832-018

Proponent is required to submit the Request for "Preliminary Network Advice" form to enworks@actewagl.com.au (available on ActewAGL website) prior to commencement of any development activity to negotiate the connection of new and/or relocation of existing electricity assets.

Please Note

- WARNING ActewAGL underground cables may be in or adjacent to this block. It is your responsibility to ascertain the location of such assets.
- Development and Building Applications will need to include any proposed ActewAGL works
- If ActewAGL approval conditions are not met, a breach of the law may result.
- Separate applications are required for water & sewerage, and communication network services.
- Construction of unapproved works may result in action being taken to require the property owner to remove non-compliant structures and/or the property owner to fund rectification works on ActewAGL's electricity network.
- Any attached reticulation or servicing plan is preliminary only. Contact ActewAGL for final plans prior to the commencement of any construction activity.
- A failure of this application to show accurately located electricity assets may result in damage and costs for which the proponent will be liable. Damage to network assets must be reported to ActewAGL.

DAVID WHITNEY
GPO BOX 158
CANBERRA ACT 2601

Dear Property Owner

Suburb: KINGSTON Block: 13 Section: 49
Development Application Number: 201425930

The *Planning and Development Act 2007* requires the above-mentioned development application recently lodged on your behalf to be publically notified. Letters have been sent to the owners of the properties that adjoin the proposed development, a sign placed on the property and an advertisement placed in the Canberra Times.

The notification period commences on **29 July 2014** and ends at the close of business on **18 August 2014**. A copy of any representations received as a result of this process will be forwarded to the applicant.

The prescribed period for making a decision on your application is 30 working days from the date of lodgement. However, if representations are received as a result of the public notification process the time frame for making a decision will be extended by an additional 15 working days.

If the time for deciding the application (the prescribed period) has ended and a decision has not been reached your application will be deemed refused. The Planning and Land Authority (the Authority) will not provide written advice of this decision. It is important to note that the Authority is still able to finalise its consideration of your application and make a decision after the expiration of the prescribed period.

The applicant will be advised when a decision on your application has been made and of any appeal rights that may be applicable.

If you would like any further information in relation to this letter please contact the Customer Service Centre on (02) 6207 1923 or email esddcustomerservices@act.gov.au

PHILIP PHILIP LEESON ARCHITECTS
4/9 MCKAY ST
Turner ACT 2612

Dear Applicant

Suburb: KINGSTON Block: 13 Section: 49
Development Application Number: 201425930

The *Planning and Development Act 2007* requires the above-mentioned development application to be publically notified. This process includes a written notice being sent to adjoining lessees, a sign placed on the property and a notice in the Canberra Times.

The public notification period for your application will commence on **29 July 2014** and end at the close of business on **18 August 2014**. Representations must be made within the notification period to be considered during the assessment of the application. A copy of any representations received as a result of this process will be forwarded to you.

Please note, the sign will be removed from the property on 19 August 2014.

The prescribed period for making a decision on your application is 30 working days from the date of lodgement. However, if representations are received as a result of the public notification process the time frame for making a decision will be extended by an additional 15 working days.

If the time for deciding the application (the prescribed period) has ended and a decision has not been reached your application will be deemed refused. The Planning and Land Authority (the Authority) will not provide written advice of this decision. It is important to note that the Authority is still able to finalise its consideration of your application and make a decision after the expiration of the prescribed period.

You will be advised when a decision on your application has been made and of any appeal rights that may be applicable.

If you would like any further information in relation to this letter please contact the Customer Service Centre on (02) 6207 1923 or email esddcustomerservices@act.gov.au

THE RESIDENT
1/7 EASTLAKE PARADE
KINGSTON ACT 2604

Dear Property Owner

The following Development Application in relation to 11 WENTWORTH AVENUE has been lodged with the Planning and Land Authority for consideration.

Development Application 201425930:

COMMERCIAL. Proposed demolition of the existing switchroom down to existing slab level.

**Location: Block: 13 Section: 49 Suburb: KINGSTON
11 WENTWORTH AVENUE**

If you feel an application may impact on you in any way you may wish to submit a written representation clearly stating the reasons for your submission.

The application is available for public inspections between 8.30am and 4.30pm weekdays at:

**Environment and Planning Directorate
Customer Service Centre
Dame Pattie Menzies House
Ground Floor (right hand building)
16 Challis Street, DICKSON ACT**

Please bring this letter with you for reference.

The application can also be viewed on the Authority website

<http://www.act.gov.au/developmentapplications>

Representations **must** be made within the specified public notification period to be considered during the assessment of the application. Representations received outside the notification period **will not** be considered.

Representations must be received by the Authority by close of business **18 August 2014**.

Representations can be submitted in the following ways:

Email:
esddcustomerservices@act.gov.au

Post:
Customer Service
Centre

By Hand:
Dame Pattie Menzies
House

Website: www.actpla.act.gov.au

PO Box 365
Mitchell ACT 2911

16 Challis Street,
DICKSON ACT

It is standard practice for the Authority to acknowledge, in writing, any representations received as a result of public notification within 3-4 business days of the submission being received. If you don't receive this acknowledgement please contact the Authority. If you make your representation within the prescribed notification period the issues raised in your submission will be taken into consideration during the assessment of the development application and you will be notified in writing once the decision has been made.

A copy of your representation will be forwarded to the development application applicant and placed on the public register unless exclusion has been granted.

You may request to have part or all of your representation excluded from the public register under Sections 411 or 412 of the *Planning and Development Act 2007*. The request for exclusion must be in writing and clearly identify what you are seeking to exclude and how the request satisfies the exclusion criteria. The Authority may approve or refuse to approve an exclusion application.

If your request for exclusion is approved the Authority will seek to protect the information from disclosure. However, the Authority can not guarantee that the information will not have to be disclosed pursuant to a legal obligation.

If you would like any further information in relation to this letter please contact the Dickson Customer Service Centre on (02) 6207 1923 or email esddcustomerservices@act.gov.au

Yours faithfully
