### 19/716 Wellbeing Indicators for the ACT – Finalisation of Framework

#### Summary of impacts:

The ACT Wellbeing Framework will allow the Government and community to consider objective and subjective indicator measures of wellbeing in each of the proposed twelve domain areas, with the indicators and their reporting being a potential basis for shaping Government priorities. The framework will give government the ability to measure many of the factors listed below and will provide a basis for monitoring the Territory's progress across a range of social, economic and environmental areas.
