I've attached a floorspace summary by centre which indicates the floorspace at supermarkets.

To provide information on expenditure at individual centres would, I believe, be commercial in confidence as it would enable individual supermarket sales performance to be identified.

Hope this is sufficient

Appendix A15

exstyl.SUB

-Absolute M2 NSA Existing 2007 Absolute

A008

This Table shows the amount of floorspace in each category in the region in either absolute or weighted mode. This existing net selling area data is extracted from IBECON's *RETAIL* floorspace database, as are the weightings which are always used in allocation of sales to outlets and can optionally be used in the presentation of tables showing existing floorspace. An "A" or "W" indicates Absolute or Weighted Floorspace. In this table use of Absolute floorspace is indicated by an "A". If Mode="W" then "TOTAL ABOVE AREAS" is unweighted for comparison with weighted values at total region level.
