Subject: FW: Redirection of QON 66: Light Rail

Hi Ellis – I have been advised this is for EDD as the lead agency for light rail?

If you agree I will formally redirect.

Thanks
Sarah

Sarah,

QON 66 (Light rail) has been asked of the Minister for TAMS.

Can you please arrange redirection to EDD.

Thanks

Yersheena

*66 **MR COE:** To ask the Minister for Territory and Municipal Services—

- (1) In relation to the Government's commitment to construct light rail, what is the expenditure to-date, broken down by financial year, on external sources including consultancies, reports and studies.
- (2) What is the internal expenditure to-date, broken down by financial year, on internal sources and the number of public service staff working on the project and in what agencies.
- (3) What is the timeline for the decision making and construction progress.
- (4) What is the expected cost to taxpayers of pre-construction and construction.
- (5) What is the predicted patronage, running costs and staffing once operational.
- (6) What is the population within reasonable walking distance of a light rail stop.
- (7) What plans are there for park and ride facilities.
- (8) What are the financial models for funding the project.
- (9) What feedback was received from Infrastructure Australia as a result of the 2008-09 federally funded proposal.

Hi Sarah

It should be redirected to ESDD, they're the lead agency although the response will be prepared within EDD (Capital Metro Project Office is currently in EDD).

Clare – I'll get the ball rolling on the response preparation, but I'm pretty sure your office will need to accept the redirection.

Regards,
Ellis.

Subject: RE: TRIM Document : D13/298 : QON 66 - Coe - Corbell - Light Rail (updated version)

Thanks Jamie

So this is right for me to provide to Corbell's office?

Or have you given it to them already?

-Ellis.

Hi Glenn, Jamie,

Here's a copy of QON 66 for your records.

I've provided this to Minister Corbell's office and updated the TRIM record.

Regards,
Ellis.

**MINISTER FOR THE ENVIRONMENT AND SUSTAINABLE DEVELOPMENT
FOR THE AUSTRALIAN CAPITAL TERRITORY**

LEGISLATIVE ASSEMBLY QUESTION

Notice Paper of Thursday 14 February 2013

Question No. 66

MR COE: To ask the Minister for Environment and Sustainable Development:

- (1) In relation to the Government's commitment to construct light rail, what is the expenditure to-date, broken down by financial year, on external sources including consultancies, reports and studies.
- (2) What is the internal expenditure to-date, broken down by financial year, on internal sources and the number of public service staff working on the project and in what agencies.
- (3) What is the timeline for the decision making and construction progress.
- (4) What is the expected cost to taxpayers of pre-construction and construction.
- (5) What is the predicted patronage, running costs and staffing once operational.
- (6) What is the population within reasonable walking distance of a light rail stop.
- (7) What plans are there for park and ride facilities.
- (8) What are the financial models for funding the project.
- (9) What feedback was received from Infrastructure Australia as a result of the 2008-09 federally funded proposal.

MR CORBELL: The answer to the Member's question is as follows:

- (1) \$0.913 million was spent in 2011-12 and to date \$0.076 million has been spent in 2012-13 on external sources.
- (2) Two full time and two part time staff worked on this project within the Environment and Sustainable Development Directorate. The total pro-rata staffing costs were \$0.164 million in 2011-12 and \$0.128 million to date in 2012-13. There has also been a team of three staff and an executive working part time on the project within the Economic Development Directorate, with pro-rata salary costs of \$0.145 million to date in 2012-13.
- (3) The 8th Parliamentary Agreement identifies 2016 for the commencement of laying tracks. Construction is anticipated to take approximately 3 years.
- (4) Preliminary cost estimates have been prepared in accordance with the National Best Practice Cost Estimation Standard for Publicly Funded Road and Rail Construction to a project scoping level. The construction cost is estimated to be around \$500 million and the indirect costs, including preliminaries, design and government costs, are estimated to be in the vicinity of \$112 million.

- (5) Initial studies indicate patronage during the morning peak (7am to 9am) towards the City for 2012 and 2031 at approximately 4,500 and 7,500 respectively, however these figures will be remodelled and refined as part of current network integration studies.

The operational arrangements and parameters for Capital Metro are being defined; therefore it would be premature, at this stage of the project, to provide an accurate operational cost estimate.

- (6) The assumed population for the Gungahlin to City corridor is 104,199 by 2031. The detail on stop and station locations has not yet been determined, and will be subject to further studies and consultation.
- (7) Planning has already been completed for two park and ride locations within the corridor: Gungahlin Town Centre and Well Station Drive. Further work will be undertaken in the Capital Metro Light Rail Integration Study to identify other suitable locations within the corridor for park and ride, bike and ride, and kiss and ride facilities.
- (8) Work to identify potential financial models appropriate for the project is underway, and once finalised, recommendations will be brought to Government for consideration.
- (9) The proposal was short listed in the Report to the Council of Australian Governments (December 2008) and identified as a project for further analysis.

Approved for circulation to the Member and incorporation into Hansard.

Simon Corbell MLA
Minister for Environment and Sustainable Development
