

Work Injury Reporting

with **riskman**

The ACT Government Accident/Incident Report form is no longer used to report incidents.

It has been replaced by the Work Injury Reporting system available for ACT Government employees at:

<https://WorkInjuryReporting>

Use this system to report:

- *any workplace event that endangers the health or safety of a person; and*
- *any workplace event that results in injury or disease, however minor, including dangerous occurrences.*

ACT Health uses a different version of RiskMan.

ACT Health incidents involving staff, patients and visitors should be submitted to ACT Health's RiskMan system available at <https://actrisk>
