

**From:** [REDACTED]  
**To:** [COMFEDD \(ACT Review Secretariat\)](#)  
**Subject:** Integrity Commission Act 2018. Review  
**Date:** Thursday, 29 June 2023 4:35:15 AM

You don't often get email from [REDACTED] [Learn why this is important](#)

**Caution:** This email originated from outside of the ACT Government. Do not click links or open attachments unless you recognise the sender and know the content is safe. [Learn why this is important](#)

**Recommendation:** that the newly appointed Commissioner will not hold or have held a Court position as a Judge, Magistrate, Court Registrar/Registry, Member of the Tribunal, Judiciary, Police, Mental Health, Barrister, Politicians and their Advisers and Directorates, RSPCA.

That the position will be filled by an Independent who is/was not Government funded, is/was not employed by the Government, is/was not a Politician.

If assessors are appointed. Transparency by showing their names, positions held, past present place of employment.

1. While listed under The Public Sector Integrity Division, it may be better to list the judiciary under the Law Enforcement Integrity Division, or both Divisions that would investigate all Courts, Court Registrar and Registry, Tribunals, Police. No one is exempt.

**Recommendations:** To allow the IC to have jurisdiction to investigate allegations relating to members of the Courts judiciary, to stop proceedings, the DPP, the Ombudsman, the RSPCA, Legal, Police, Mental Health, Human Rights Commission .

That the investigations not be referred back to a judiciary complaints system or to the Ombudsman.

That these complaints Departments be shut down

2. Public sector integrity division:

**Recommendation:** to include the RSPCA. that This approach would NOT ensure that it is the courts making findings of criminally corrupt conduct.

3. Outcomes of Investigations:

**Recommendation:** Where the IC uncovers more minor disciplinary issues by a staff member of an entity, they would NOT refer that material back to the relevant entity for action. They will have a conflict of interest to deal with the matter and won't deal with it.

In relation to investigations into parliamentarians, there are two outcomes:

if evidence of corrupt conduct is found – material would NOT be referred to the DPP for consideration, instead IC will make the orders, or

if no evidence of corrupt conduct is found – the matter is finalised; Integrity Commissioner must advise parliamentarian of the outcome and may NOT advise a referring integrity agency, such as the Ombudsman, instead IC will make the orders, to cut out all of the arduous chain of agencies.

4. Referral mechanisms

Law enforcement integrity division

**Recommendation:** Heads of law enforcement agencies would have a mandatory obligation to refer corruption issues relating to their agency to the IC. Referrals could also be made by the Attorney-General, the Minister responsible for the agency, an integrity agency (such as the Commonwealth Ombudsman) or anyone else (including a staff member or a member of the public).

Public sector integrity division

**Recommendation:** The heads of entities (other than a parliamentarian's office) covered by the public sector integrity division would have a mandatory obligation to report suspected corruption issues relating to their staff members if they hold a 'reasonable suspicion' that a listed offence has been committed. Heads of intelligence agencies would notify corruption issues to the Inspector-General of Intelligence and Security (IGIS), who would determine whether the matter should be referred to the IC.

The public sector integrity division could receive a referral from another integrity agency – like the Ombudsman or the AFP – where that agency discovers activity that suggests corrupt conduct and has a reasonable suspicion that the conduct constitutes one of a list of criminal offences. This applies to corruption issues involving parliamentarians and their staff. For example, if the Independent Parliamentary Expenses Authority observed potentially corrupt conduct that it reasonably suspected was capable of constituting a listed criminal offence, it could refer that activity to the IC for investigation.

Parliamentarians will also be able to refer their staff (where the reasonable suspicion threshold is met) and to make a self-referral

to the public sector integrity division. There is requirement of reasonable suspicion for a parliamentarian self-referring to the IC.

The public sector integrity division of the IC would also be able to investigate parliamentarians or their staff where an existing IC investigation into suspected corruption within a different part of the public sector revealed evidence that will meet the investigation threshold.

The IC will receive referrals about those within the public sector integrity division's jurisdiction from the public at large.

#### 5. Powers

Recommendation: The law enforcement integrity division would have all the powers ACLEI has – including the ability to execute search warrants, make arrests and use telecommunications interception and surveillance devices, subject to appropriate thresholds being met. The public sector division would have all the same powers as the law enforcement integrity division with the ability to hold public hearings or conduct integrity testing.

Witnesses/whistle blowers reporting corruption will not be treated as criminals by having a warrant to arrest and/or a search Warrant, telecommunications interception and surveillance devices set up against them for reporting the crimes.

#### 6. Oversight arrangements

The IC would be accountable to the Attorney-General and subject to oversight by an independent Inspector-General and a Parliamentary Joint Committee on the IC. The Commonwealth Ombudsman would also oversee and audit the IC's use of coercive powers such as telecommunications interception, surveillance devices, assumed identities and integrity testing.

Recommendation: to ensure that the Attorney-General, Independent Inspector-General (who is/was not a judge, Magistrate, Court/Tribunal Registrar/Registry, Tribunal Member, Solicitor, politician, Government funded, Government agency/department etc, Parliamentary Joint Committee, Commonwealth Ombudsman don't hinder IC from investigating the reported corruption because they are their colleagues, friends, family etc. Too much interference will not end corruption.

#### Commencement

The commencement timeframe for the IC will depend on the passage of legislation; the government will introduce the legislation to the Parliament once it has considered feedback received during the consultation period.

Recommendation: that the Government and Parliament will Not hold up the commencement timeframe.

Please Kindly immediately adopt our Animal Welfare Act/Bill.

Animal Welfare: abolish temperament testing with hefty fines, criminal charges, prison sentence.

Victims of Courts, legal aid, Mental Health, DPP, RSPCA, Police, DAS, the Government, IC, etc immediately receive huge compensation.

The current IC assessors immediately terminated from their positions over a conflict of interest and corruption, to be immediately investigated.

Appeals/reviews with the Legal Aid, Law Society, Barr Association etc must disclose the committee or panels names, positions, etc who are hearing their appeals/reviews over considering a conflict of interest 2 weeks prior to the sitting date.

Mental Health, Forensics Mental Health and Older Persons Mental Health Unit, shut down and investigated, Courts, Tribunals, Judiciary both ACT and Federal Police, older person abuse police unit immediately shut down, DPP, RSPCA, DAS, TCCS, Legal Aid, Human Rights Commission, Community Services, My Aged Care, Quality Aged Care and Safety Commission, etc corruption to be immediately actioned, investigated, victims immediately compensated names cleared by IC.

Thank you for your extension, valuable time and kind assistance.

Link to March 2023, What happens when a Groomer is negligent. Poodles are extremely sensitive in diet and Grooming. They become over groomed by certain groups such as the unqualified RSPCA who commit animals cruelty in the process to these needs of very specialised care. The feet on this Poodle has suffered clipper burns clipped by a Groomer who wasn't qualified, using a hot clipper, the wrong size, and clipping raw to the bones, note her toe nail clipping is untidy, unprofessional, also showing how unqualified she is. This Dermal Scratch spray with Aloe Vera, Calendula, Vitamin E in it may soothe the itchiness, however to prevent infections it's best to take your Poodle to a vet for antibiotics shot. Click on link for more information:

[https://m.facebook.com/story.php/?story\\_fbid=pfbid02CEz4sTNxz3jU4uA6GmxGRYgp1v9S9v28ve3JrfOyJyFnBFMn8yrJr9rRbbYAx599l&id=1649024860](https://m.facebook.com/story.php/?story_fbid=pfbid02CEz4sTNxz3jU4uA6GmxGRYgp1v9S9v28ve3JrfOyJyFnBFMn8yrJr9rRbbYAx599l&id=1649024860)

Symptoms, Treatment, prevention of ticks in Poodles.

Each Dog and different Dog breeds are different who will need separate treatments.

If you live in or visit tick infested areas, always check your dog thoroughly all over, including ears, feet, paws, mouth. Combing helps using a good tick comb.

Symptoms: Your Dog will become weak, collapse, won't be able to stand up.

Avoid toxic flea, tick control chews, collars.

Ticks are known as eight-legged parasites, are known for sucking blood in dogs through their bite. It actively demonstrates that you have to know the methods to recognize ticks in your dogs.

How do Ticks spread?

Ticks, commonly known as back legged ticks, transmit diseases in dogs like bacteria, viruses, and parasites. They easily spread in Poodle dogs by sensing the smell of their breath and body odors. In that case, ticks tug themselves in leaves or trees and wait for their host. This period is also known as "questing," where they hold themselves into grass and leaves by their part of legs. When ticks find dogs to attack, they start consuming their blood for days by inserting its feeding tube and small amounts of saliva. This process may go unnoticed, connecting to the fact that most animals cannot feel ticks' attack.

Signs to Spot Ticks in Poodles

Chewing: The most common and obvious reason your poodle is chewing or licking its feet is that ticks are present inside it. Ticks hide in and between your dog's toes and bottom of feet, making it difficult to catch them. You should note that excessive chewing or licking on toes can be a sign of ticks adhering to your dog's fur.

Continuous chewing or licking on genitals is another sign that your Poodle is struggling with ticks' infestation. Poodles tend to lick their genitals when they get infected with ticks. To avoid this, bathe it and check the area while doing so. It can be a task to identify ticks in your dog's fur, especially when your dog has dark fur. However, chewing is the easiest sign to identify that your dog is infested with ticks.

Eye discharge: Many dog owners take it easy when their dogs get eye discharge. Well, if you don't know yet, ticks may look like an eye discharge too. Yes, ticks, commonly known for their small size and dark color, mostly inhabit themselves in dark areas of your dog. Likewise, they are good at adhering to your dog's eyes because the area around the eyes is usually darker. To get rid of ticks from your Poodle's eyes, be sure to check their eyes regularly.

Scratching: If you find your poodle continually scratching its armpit, it indicates ticks getting stuck under it. Armpits in dogs are often deep shaped, which can make it difficult to notice ticks. In that case, you can examine it properly to avoid any existing ticks that can harm your dog's skin. Another area where you may find your Poodle dog scratching due to tick infestations is their ears. Ears are the most sensitive and common area in dogs where ticks colonize themselves. Catching ticks inside your poodle's ear can be a task because ticks come in small sizes. However, you can put your fingers inside your dog's ears to feel for ticks, click on link for more information.

[https://m.facebook.com/story.php/?story\\_fbid=pfbid035dE2KMJB21r4zCXNwHrXRfUdkMEZsadQh6tcn1AtMzXCZaHpKz7sNbiMK582JxBh1&id=1649024860](https://m.facebook.com/story.php/?story_fbid=pfbid035dE2KMJB21r4zCXNwHrXRfUdkMEZsadQh6tcn1AtMzXCZaHpKz7sNbiMK582JxBh1&id=1649024860)

We had a live online Zoom meeting in the US, from 1am Australian Eastern time on 25/5/23 with NhRP legal team, 'A conversation with NhRP attorneys', discussing Court chimpanzees cases, Happy the incarcerated Bronx Zoo Elephant Court cases that I raised, amongst other relevant topics. I suggested to lobby the NY Government, Council to change the legislation to recognise Happy and other victims as sentient with Habeas corpus rights. The NY Attorney raised that the Courts don't comply with legislature laws. I then suggested that they quote the legislated law in these cases. Animal Welfare works too as one of the Judges was mostly concerned of Happy's locked up, chained treatment, swaying side to side, completely stressed and traumatised. Arguing Animal Welfare should strengthen granting sentence Habeas corpus rights.

[https://m.facebook.com/story.php/?story\\_fbid=pfbid08VbXUWF84bakEUv5YjFzxCgLyMyUx7kWTDR18kX8Ke2WP9CRgh2It9UEHX6grLPil&id=1649024860](https://m.facebook.com/story.php/?story_fbid=pfbid08VbXUWF84bakEUv5YjFzxCgLyMyUx7kWTDR18kX8Ke2WP9CRgh2It9UEHX6grLPil&id=1649024860)

We received an Enquiry over whether or not feeding dried sultanas to birds is ok. The caller also rang someone else at one of the universities in their wildlife department, who googled for an answer who gave bad advice saying google said that it's ok to feed dried raisins so it must be ok to feed dried sultanas.

I returned the caller's phone call to advise her that Dried fruit is toxic that will cause deformities, suffering, attack the eyes, and slowly cause death. Only feed small amounts of fresh fruit and vegetables. Allow the birds to feed on their natural diet. The caller is mainly feeding Magpies, Currawongs, Ravens, etc, not parrots, who said then she'll go back to feeding mince. I advised her that it is filled with toxic preservatives and colourants that cause deformities, suffering and death. 2 Photos taken by me attached of my own visiting Currawongs  
One of the cheeky Currawongs lands behind a visiting Tortoiseshell Cat.

There is nutritional loss or degradation in dried fruits. The dehydrating process uses heated air – heat destroys certain vitamins and minerals. There are different methods used for dehydrating the different types of fruit – some are blanched to kill off any micro-organisms present. This applies more heat and can eliminate the water soluble vitamins, like vitamin C.

A "sulphuring" process is used to preserve the colour and flavour of the fruit while preserving some nutrients and destroying others. Sulfur dioxide is a gas that is created by burning coals or oils that contains sulfur. It is TOXIC and trace amount can be found in dried fruits having endured that process. Look for the words "sulphur", "sulphites" or "sulphur dioxide" on the label to identify which have been treated and AVOID them.

On the ABC weather report, screenshot of ABC photo is attached, including one of my own photos taken by me of my own visitor, a male King Parrot enjoying a natural diet, I noticed a photo of a pair of Gang Gangs being hand fed solely on sunflower seeds. These are addictive that will also cause deformities, suffering and death. Only feed high grade parrot mix, that only use Grey sunflower seeds in the mixed seeds.

Link to June 2023, Wildlife Carers Group has donated non perishables for hampers being made up as prizes for raffles to [REDACTED] for his Soccer Fund. [REDACTED], has been selected to play soccer in Japan for the Australian team in the Barca Academy International Junior Competition. Former Deputy Leader of the Liberal Party [REDACTED] is the driving force behind this fundraiser. I met up with [REDACTED] today 28/6/23 to hand over the non perishables food items. Photos taken by me of [REDACTED] clutching the bag with the non perishables with her daughter, and the variety of non perishables food items in the bag.

[https://m.facebook.com/story.php/?story\\_fbid=pfbid0rNfYX7ve84P9tTLFAa1BDBwxRaVXvxPff79jm7vzucqGUwwsL58t7JgfdBfar3P3l&id=1649024860](https://m.facebook.com/story.php/?story_fbid=pfbid0rNfYX7ve84P9tTLFAa1BDBwxRaVXvxPff79jm7vzucqGUwwsL58t7JgfdBfar3P3l&id=1649024860)

Link to June 2023 abuse to my Life Support, Essential Service, Assistance, Carers, Companion Dog and myself: Update: does anyone have any surveillance cameras footage tracking my dog from [REDACTED]. Burns Club on Saturday 24/6/23 at 12.30pm where DAS picked him up after someone called DAS, was he with someone? My dog wouldn't have walked all the way to the Burns Club. Update: DAS said on Tuesday that he won't give back my Dog and he's deregistered him. Their own SEA form that I filled out in 2019 that their current SEA form states as well, that if desexing the animals has a detrimental effect in his health then they must approve the permit. The unqualified RSPCA made him sick for the entire 2 and a half years

they illegally held him for. Attached is the photo of the RSPCA medical report in May 2023, 2 and a half years after they had him, he's still very sick, yet the RSPCA still failed to return him to me. I repeatedly warned them for those years that they are killing him, he has a specialised dietary requirements, to immediately return him to me. I seized him back 2/6/23. I've only had him back for 3 weeks. Now DAS is killing him feeding him the same diet, torturing him. Link to Animal Cruelty committed by ACAT, DAS, RSPCA to kill a victim of violence committed by DAS, RSPCA illegally seizing 2 Dogs over applying not to have them desexed, illegally fictitiously declared as being dangerous, click on link for more information:

[https://m.facebook.com/story.php/?story\\_fbid=10219192920447709&id=1649024860](https://m.facebook.com/story.php/?story_fbid=10219192920447709&id=1649024860). The photo from my security camera shows me treating my Dog several times a day, daily for drug free pain treatment under the Vet's instructions and training. Another photo is showing the DAS seizure notice. There is no way my dog got to the Burns Club from my place. Anyone with any information on my dog's movements, surveillance videos, from [REDACTED] to the Burns Club would be greatly appreciated. Was he with someone, did someone drive him to the Burns Club then ring DAS?? This is the first time that my dog had ever been picked up by DAS. He never gets outside my secure property. Update: DAS picked him up, they refused to immediately let me pick him up. He has a strict dietary requirements. Update: Domestic Animals Services picked him up, still haven't given him back to me. He is my Life Support, Essential Service, Carers, Assistance, Companion Dog who no one is allowed to interfere with, specifically trained for me for my cardiac condition. Update [REDACTED] from DAS left a message saying he picked my dog up. I rang Access Canberra who rang [REDACTED] telling him to ring me back. Lost or stolen White Standard Poodle [REDACTED] ACT, someone opened up the automatic roller door and either took him or let him out. He is microchipped, registered.. Please phone [REDACTED]

I attended the 'Finding and Treating Silent Pain In Pets Masterclass Series #94', On Sunday 7/5/23, live online in Melbourne, hosted by [REDACTED]. This Masterclass is basically teaching you what I've been teaching for years, included in

the Animal Welfare Act ending in 2022, that the Government repeatedly ignored, learn to read animals body language and comply with them, listen, watch them. Don't force them to walk when they are clearly in agony and can't. They will collapse or you will kill them during forcibly walking them. Screenshots taken by me. Click on link for more information.
