

## Triple Bottom Line (TBL) Assessment Summary

*The Triple Bottom Line Assessment is required to be published in accordance with Part 4, section 23 (1)(b) of the Freedom of Information Act 2016*

### 19/633 – Electricity Feed-in (Renewable Energy Premium) Amendment Bill 2020 – Agreement to Introduce

#### Summary of impacts:

- The proposed amendments will seek to strengthen the reliability of data used to produce annual reports on the Small and Medium-scale Feed-in Tariff (FiT) Scheme, which will have a positive impact on the public's right to information.
- More accurate information will also be available to support monitoring of the ACT's 100% renewable electricity target, which supports the environment through mitigation of the impacts of climate change.

Level of impact	Positive	Negative	Neutral
-----------------	----------	----------	---------

Social		
Level of impact	Impact	Summary
Neutral	Gender Equality	<ul style="list-style-type: none"> <li>• The legislative amendments proposed do not target a specific cohort based on gender. They do not impact a target group or sub-group when women and/or girls, or gender-diverse individuals, are disproportionately represented or underrepresented. They will not impact females, males or gender diverse individuals differently. The amendments proposed will impact ACT electricity consumers with an entitlement under the Small and Medium-scale Feed-in Tariff (FiT) Scheme, as well as ACT electricity consumers more broadly, with no distinctions based on consumers' gender.</li> </ul>
Positive	Access to services	<ul style="list-style-type: none"> <li>• The proposed amendments will seek to strengthen the reliability of data used to produce annual reports on the Small and Medium-scale Feed-in Tariff (FiT) Scheme. The proposed amendments have a positive impact on the public's right to information.</li> </ul>

<b>Economic</b>	Nil impact
