Glenn
Kuga has pulled together some responses as we got it yesterday.
My next step was for our Govt services to send to you for sign off.
I will send email shortly- just off to a meeting.

Hi Erin

We have received the attached Question on Notice seeking answers to a series of questions that had been the subject of a motion in the assembly (which was amended by Government and then voted down) on Wednesday this week.

Notwithstanding the Minister's prerogative as to how he chooses to respond, I think we should provide what material we can to inform that response. I am happy to coordinate that response, material for which will be spread across both of our Directorates at least.

I have asked the crew here to go through our records and pull together whatever we have, particularly in terms of costs to date. Could I ask you please to do the same for anything ESDD might be able to provide?

I understand that the timing indicated at this end for a response is such that a draft should be cleared back to the Minister's Office by 27 February. I will follow up on that, but will be working towards that date in the absence of anything to the contrary.

Thanks

Glenn

Hi Dorena

For info, TAMSD and ESDD have previously requested QON 66 re light rail be redirected from TAMSD to ESDD, as per below.

Glenn responded to me yesterday and is finalising the response as a priority – haven't got it yet though.

Regards,
Ellis.

Hi Pam,

Could you please redirect QON 66 appearing on the notice paper today to the Minister for Environment and Sustainable Development.

Thanks
Sarah

*66 MR COE: To ask the Minister for Territory and Municipal Services—

- (1) In relation to the Government's commitment to construct light rail, what is the expenditure to-date, broken down by financial year, on external sources including consultancies, reports and studies.
- (2) What is the internal expenditure to-date, broken down by financial year, on internal sources and the number of public service staff working on the project and in what agencies.
- (3) What is the timeline for the decision making and construction progress.
- (4) What is the expected cost to taxpayers of pre-construction and construction.
- (5) What is the predicted patronage, running costs and staffing once operational.

- (6) What is the population within reasonable walking distance of a light rail stop.
- (7) What plans are there for park and ride facilities.
- (8) What are the financial models for funding the project.
- (9) What feedback was received from Infrastructure Australia as a result of the 2008-09 federally funded proposal.
