ACT Corrections queried the status of the Prisons and Reintegration Working Group work on consideration of CVE strategies for offenders in detention and post release. The COAG National CVE Taskforce Progress Report indicates that this work is now complete and that the working group has finalised a forward work plan to focus on four items of high priority.

ACT Corrections advised that an update on the Prison Working Group will be provided to ACTCVESC following the next meeting of the working group.

### **Prisoner Management & Reintegration Working Group (PMRWG) – Briefing**

The Prisoner Management & Reintegration Working Group (PMRWG) is comprised of representatives from across Australian Governments who oversee the implementation of CVE initiatives in correctional facilities in line with COAG agreed timeframes. The taskforce secretariat will coordinate development of project plans and assist with information sharing and managing timeframes.

The PMRWG functions are to:

- a) Develop a holistic approach to disengaging and reintegrating prisoners who have been convicted of terrorism-related offences;
- b) Explore strategies for preventing the radicalisation of others within the correctional system;
- c) Examine and provide advice on proposals for disengagement and counter-radicalisation initiatives in prisons and the reintegration of prisoners into the community post-release;
- d) Be kept informed about and consider the evaluations of disengagement, reintegration and counter-radicalisation initiatives; and
- e) Operate as a forum for engaging the expertise and assistance of agencies and sectors including social policy and service agencies and other relevant stakeholders.

The ACT is represented on this working group by the Executive Director, ACT Corrective Services.

### **Background**

It was proposed that the CVE PWG would continue under the CVESC as the 'Prisoner Management & Reintegration Working Group'.

At the ACT CVE Steering Committee meeting on 22 February, then-ACT Corrections Executive Director provided an update on the recent meeting of the Prisoner Management and Reintegration Working Group. The PMRWG is currently implementing policies based on an 11 point recommendation paper, 'The Radicalisation in Prison Plan'. The plan has been reviewed and will be rolled out in prisons across Australia from August to September 2017.
