**Subject:** Review of VET in Schools - web enabled report

Hi Louise

Please find attached the web enabled version of the report, *Review of VET in ACT Public Schools*. As described below by our contractor, some boxes/tables in the document may not meet web-enabled specifications.

I have also attached the web enabled version of the response, *Vocational Education and Training for Secondary Students in ACT Public Schools: Education and Training Directorate Response to Future Directions*.

As discussed previously, both documents are required for uploading onto the Directorate's website at [http://www.det.act.gov.au/school\\_education/vet\\_for\\_secondary-students](http://www.det.act.gov.au/school_education/vet_for_secondary-students).

Kind regards  
Sybilla

**Subject:** Web enabled report

Hello Kaaren

I am pleased to attach the web enabled version of the Review of VET in ACT Public Schools report as requested below.

As you may recall, the final report contains Case Study boxes and Boxes in the appendix containing the student survey. I have been advised that it is recommended that boxes should not be used in documents that are to be web enabled. I understand that, as a result, in the attached document these elements have not been "enabled". Hopefully this will not cause any issues for you. Please alert me to any concerns you may have on this point.

I trust all is going well in the implementation of the directorates response to the Review. Please let me know if we can be of any further assistance

And thank you again for the opportunity to work on this projects – it was a please working with you

George
