Authority

I am an Information Officer appointed by the Director-General under section 18 of the Act to deal with access applications made under Part 5 of the Act.

Timeframes

In accordance with section 40 of the Act, CMTEDD is required to provide a decision on your access application by 8 April 2022.

Decision on access

Searches were completed for relevant documents and three documents were identified that fall within the scope of your request.

I have included as **Attachment A** to this decision the schedule of relevant documents. This provides a description of each document that falls within the scope of your request and the access decision for each of those documents.

I have decided to grant partial access to one document and full access to two documents relevant to your request.

My access decisions are detailed further in the following statement of reasons and the documents released to you are provided as **Attachment B** to this letter.

In accordance with section 54(2) of the Act a statement of reasons outlining my decisions is below.

Statement of Reasons

In reaching my access decisions, I have taken the following into account:

- the Act,
- the content of the documents that fall within the scope of your request,
- the Human Rights Act 2004.

Exemption claimed

My reasons for deciding not to grant access to the documents and/or components of these documents are as follows:

Information that would, on balance, be contrary to the public interest to disclose under the test set out in section 17 of the Act

Public Interest

The Act has a presumption in favour of disclosure. As a decision maker I am required to decide where, on balance, public interest lies. As part of this process, I must consider factors favouring disclosure and nondisclosure.

In *Hogan v Hinch* (2011) 243 CLR 506, [31] French CJ stated that when 'used in a statute, the term [public interest] derives its content from "the subject matter and the scope and purpose" of the enactment in which it appears'. Section 17(1) of the Act sets out the test, to be applied to determine whether disclosure of information would be contrary to the public interest. These factors are found in subsection 17(2) and Schedule 2 of the Act.

Taking into consideration the information contained in the documents found to be within the scope of your request, I have identified that the following public interest factors are relevant to determine if release of the information contained within these documents is within the 'public interest'.

Factors favouring disclosure in the public interest under Schedule 2.2.1:

(a) disclosure of the information could reasonably be expected to do any of the following:

(xiii) contribute to the administration of justice generally, including procedural fairness

Having considered the factors identified as relevant in this matter, I consider that release of information contained in these documents may contribute to the administration of justice generally by allowing you to have access to WorkSafe ACT investigation report and associated documents related to your access request.

Factors favouring nondisclosure in the public interest under Schedule 2.2.2:

(a) disclosure of the information could reasonably be expected to do any of the following:

(ii) prejudice the protection of an individual's right to privacy or any other right under the Human Rights Act 2004.

Considering the factor in favour of disclosure against the factor favouring nondisclosure, I am satisfied that the protection of an individual's right to privacy, especially in the course of their dealings with ACT government, is a significant factor. Parties involved in this matter have provided their personal information for the purposes of complying with an WorkSafe inspection. Their right to privacy in my opinion, outweighs the benefit which may be derived from releasing their personal information. These individuals are entitled to expect that the personal information they have supplied as part of this process will be dealt with in a manner that protects their privacy.

Having applied the test outlined in section 17 of the Act and deciding that release of personal information contained in the documents is not in the public interest to release, I have chosen to redact this specific information in accordance with section 50(2). Noting the pro-disclosure intent of the Act, I am satisfied that redacting only the information that I believe is not in the public interest to release will ensure that the intent of the Act is met and will provide you with access to most of the information held by CMTEDD within the scope of your request.

Charges

Processing charges are not applicable for this request because the number of pages to be released to you is below the charging threshold of 50 pages.

Online publishing – Disclosure Log
