Hi s41

As discussed today, there are a few changes to the survey following recirculation to the directorates (isn't there always) ...

I will be away until 26 April – but in my absence Anita or Tania Navarro (copied) can help.

In addition to the changes marked-up in the document, we'd also like to ask questions on the following:

1. Greyhound racing – something to test community views re greyhound racing generally. We don't want to frame this as a question which would support a ban.
Maybe something like - Do you think that's appropriate that the Govt plans to withdraw approximately \$1M subsidy it currently provides to the industry? In your view, is this appropriate?

Hi Nicole,

Thanks for discussing the last draft of the questionnaire for cycles 3 and 4. Attached is the next draft.

Please let me know if you would like to make any changes, and whether you think we need to run the questions back past the relevant Directorates.

Hi Nicole,

32a is designed to capture whether individuals support greyhound racing, which I think will affect 32b more than any of the other demographics we have in the survey.

In other words, my hypothesis is that supporters of greyhound racing will disagree with 32b and non-supporters will agree.
