Authority

I am an Information Officer appointed by the CMTEDD Director-General under section 18 of the Act to deal with access applications made under Part 5 of the Act.

Timeframes

In accordance with section 40 of the Act, CMTEDD is required to provide a decision on your access application within 30 days.

Therefore, a decision is due by **5 August 2026**.

Decision on access

Searches within WorkSafe ACT have identified information within the scope of your request.

Some of the information identified as relevant to your scope included health information. The FOI Act cannot be used to access health records under the *Health Records (Privacy and Access) Act 1997*. This information was not processed as part of this access application.

The information that can be processed under the FOI Act has been compiled into a document by the business unit.

I have decided to grant **partial access** to the information within the document.

Release of documents

The information is being released to you as an appendix to this notice. Refer **Appendix A**.

Statement of Reasons

In accordance with section 54(2) of the Act a statement of reasons outlining my decisions is below. In reaching my access decisions, I have taken the following into account:

- the Act
- the information that falls within the scope of your request
- *Health Records (Privacy and Access) Act 1997*
- *Information Privacy Act 2014*
- *Human Rights Act 2004.*

As a decision maker, I am required to determine whether the information within scope is in the public interest to release. To make this decision, I am required to:

- assess whether the information would be contrary to public interest to disclose as per **Schedule 1** of the Act.
- perform the public interest test as set out in section 17 of the Act by balancing the factors favouring disclosure and factors favouring nondisclosure in **Schedule 2** of the Act.

Exemptions claimed

Schedule 1: Information taken to be contrary to the public interest.

No Schedule 1 factors were identified.

Public Interest Test

The Act has a presumption in favour of disclosure. As a decision maker I am required to decide where, on balance, public interest lies. As part of this process, I must consider factors favouring disclosure and nondisclosure.

In *Hogan v Hinch* (2011) 243 CLR 506, [31] French CJ stated that when ‘used in a statute, the term [public interest] derives its content from “the subject matter and the scope and purpose” of the enactment in which it appears’. Section 17(1) of the Act sets out the test, to be applied to determine whether disclosure of information would be contrary to the public interest. These factors are found in subsection 17(2) and Schedule 2 of the Act.

Schedule 2: Factors to be considered when deciding the public interest.

Taking into consideration the information within scope of your request, I have identified that the following public interest factors are relevant to determine if release of the information contained within these documents is within the ‘public interest’.

Factors favouring disclosure (Sch 2, s 2.1)

- *Section 2.1(a)(ii) - contribute to positive and informed debate on important issues or matters of public interest.*

As you have requested statistical information related to the ACT Public Service (ACTPS), the information you have requested may contribute to informed debate on matters of public interest, being redeployment information about the ACTPS.

I am satisfied that these factors favouring disclosure carry some weight. However, these factors are to be balanced against the factors favouring nondisclosure.

Factors favouring nondisclosure (Sch 2, s 2.2)

- *Section 2.2(a)(ii) - prejudice the protection of an individual’s right to privacy or any other right under the Human Rights Act 2004.*

I have decided to not release full statistical data to protect the privacy of individuals. In small value datasets, the probability of identifying individuals increases significantly by combining the information with other available data. Withholding these details helps ensure confidentiality is maintained and reduces the risk of unintended disclosure of personal information.

I find there is a reasonable likelihood that individuals could be identified, either directly or through combination with other information if exact numbers were released for some categories where there were less than ten individuals, or five if across a longer period. For these categories I have withheld the exact figure. However, I have decided to release exact data where there were zero individuals fitting a category. I have given significant weight to protecting information about a person's personal circumstances and sensitive information collected during their employment.

Having applied the test outlined in section 17 of the Act and deciding that release of some information contained in the documents is not in the public interest to release, I have chosen to redact this specific information in accordance with section 50(2). Noting the pro-disclosure intent of the Act, I am satisfied that redacting only the information that I believe is not in the public interest to release will ensure that the intent of the Act is met and will provide you with access to the majority of the information held by CMTEDD within the scope of your request.

Charges

Processing charges are not applicable for this request because the number of pages released to you is below the charging threshold of 50.
